

BOREXPERT 700 PIPE INSPECTION CAMERA

REDEFINING PIPELINE VISIBILITY

The BoreXpert 700 Series offers high-definition imaging with intelligent and user-friendly operation. It utilizes advanced digital image processing technology, featuring megapixel resolution and a large 5.5-inch OLED display to deliver exceptionally clear visuals. Even under strong sunlight, fine defects can be accurately identified.

The system is equipped with a mechanical 360° articulation (rocker control) for precise inspection and a modular, replaceable insertion tube design. It supports multiple camera options, including 2.2 mm, 2.8 mm, 4.0 mm, and 6 mm diameters, available in forward-view, dual-view, or interchangeable configurations.

FEATURES

- Tungsten-braided insertion tube
- 5.5" OLED Screen
- Unique interchangeable camera and tube
- Multi-screen display, wireless, easy to share
- Mechanical 360° rocker technology
- Interchangeable camera -forward, side view camera
- Stand structure design, for long-term use

TECHNICAL SPECIFICATION

Display screen	5.5"OLED touch screen
Screen resolution	1920*1080
Image direction	Rotate 180°, Mirror
Zooming in	10 levels, 2.5 times
Image color	Color or Negative
Joystick control	Mechanical rocker for 360°rotation
Automatic locking	Automatic probe locking
Functions	Photo/video recording,
Memory	32G
Data I/O port	SD card port, HDMI video port
Battery	Two 18650 Lithium battery
Standby time	4h
Weight	950g
