

Ref : **POLY SCP**

Tool for stripping external sheath, peelable semiconductor and insulation

Use:

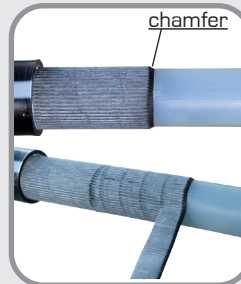

- Preparation tool for medium voltage cables from 25 mm² to 630 mm².
- 3-function stripping tool: external sheath / peelable semiconductor [easy-strip] / primary insulation

Stripping external sheath

Removing peelable semiconductor

chamfer

Stripping insulation

Characteristics:

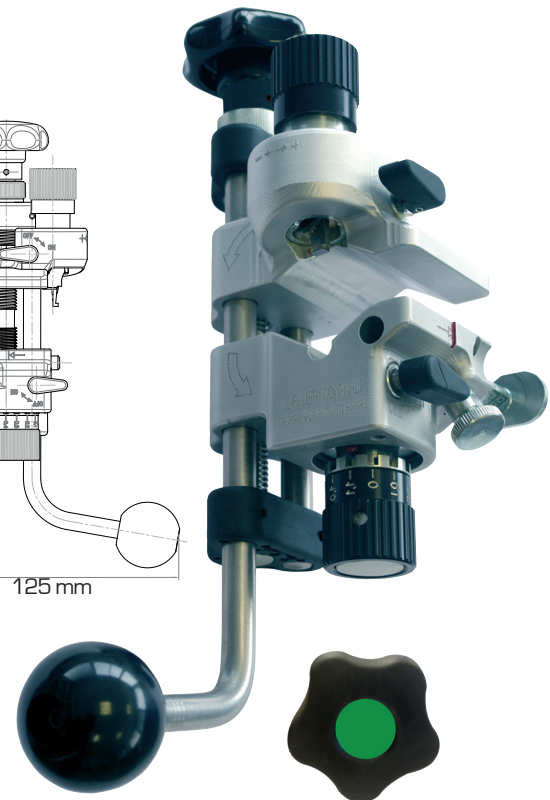

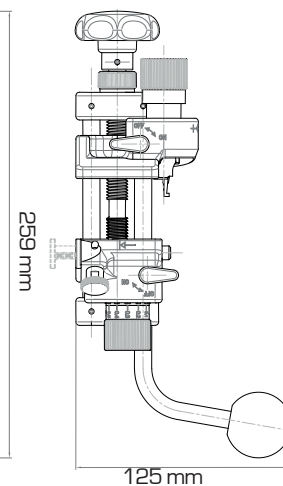

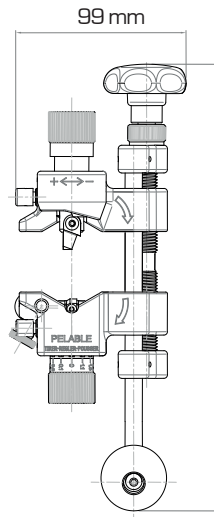

- Treated aluminum body
- Blades made of rapid steel
- Capacity: ø17 mm to ø60 mm (25 mm² to 630 mm²)
- Max cutting depth:
 - 12 mm (external and insulation)
 - 1.2 mm (peelable semiconductor)
- End of semiconductor with chamfer.
- For all materials (PE / XLPE / EPR / PVC ...)
- 25 mm to 55 mm retractable stop
- Identification color: Green
- Weight: 1,29 kg

Marking:

DERANCOURT
POLY SCP
Serial number

Accessories:

- Ref. **LAME POLY L**: Replacement blade for external sheath and insulation
- Ref. **LAME OUT SCP CH**: Replacement blade for peelable semiconductor]
