

DIGITAL PH METER

SI360

SI360 portable pH Meter is a compact and reliable device designed for measuring the acidity or alkalinity (pH level) of liquids. This device is widely used across various industries, including water treatment, food and beverage, agriculture, and laboratory analysis. It offers precision and portability, making it an essential tool for on-site and field applications.

Ph Meters are essential for monitoring pH levels in drinking water, aquariums, and swimming pools, used to test soil pH for optimal plant growth , ensures pH balance in brewing, winemaking, and food processing , ideal for research and development in various scientific fields.

FEATURES

- Double display of pH, temperature
- High sensitive probe
- 3 point calibration
- Double color backlight
- Replaceable probe
- Automatic temperature compensation
- Numerical locking (HOLD)

TECHNICAL SPECIFICATION

Measuring Range	pH: 0~14 Temperature: 0~60°C
Accuracy	pH: ±0.05 Temperature: ±0.5°C
Resolution	pH: 0.01 Temperature: 0.1°C
Repeatability	±0.03
Units	Salinity: ppt, %, SG Temperature: °C, °F
Operating Environment	Temperature: 0~60°C; Humidity: ≤85%RH
Protection Level	IP66
Power Supply	2 pcs of 1.5V AAA alkaline batteries
Dimension	180 x 44 x44 mm
Weight	103g
