

OZONE GAS METER

SI7110

This 3-in-1 Ozone Detector combines monitoring of ozone concentration, temperature, and humidity in one compact device. Featuring advanced sensors, it delivers precise detection of both low ozone levels and high-concentration threats, ensuring dependable data for critical decision-making.

When ozone levels exceed safe limits, the detector immediately emits a loud audible alarm, enabling prompt action to safeguard personnel safety and maintain air quality standards.

With its historical data recording capability, the device automatically logs detection results over time, allowing you to effortlessly monitor and analyze ozone concentration trends for a comprehensive understanding of air quality changes.

FEATURES

- 3-in-1 Functionality
- Advanced Sensors
- Safety Alarm
- Historical Data Recording
- Compact and User-Friendly
- Reliable Data Support

TECHNICAL SPECIFICATION

Display	LCD display
Measurement	Ozone ,Temp , Humidity
Measuring range O3	0 - 50PPM
Resolution	0.001 PPM
Measuring range Atmospheric pressure	86Kpa - 106Kpa
Measuring range Temperature	-10°C-50C (14°F-122°F)
Measuring range Humidity	20%-85% RH
Storage Temperature	-10°C-60C (14°F-140°F)
Battery	Built in Li-battery 2000mAh
Material	ABS
Dimension	130 x 80 x 32mm
Weight	160g
